

# CREATING IBM CLOUD SERVICE

Team ID	PNT2022TMID51764
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES
Name	EBIN SEBASTIAN

The screenshot displays the IBM Cloud dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes the 'IBM Cloud' logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user account 'EBIN SEBASTIAN's Acc...'. The main content area is titled 'Dashboard' and features a 'Create resource' button. Below this, a 'For you' section presents five recommended services: 'Build' (a blue box with text about easy starter tutorials), 'Hosting with bare metal servers' (3 min), 'Use Streaming Analytics' (2 min), 'Build a web app with Watson Speech to Text' (15 min), and 'Build a Virtual Private Cloud (VPC)' (7 min). Each service card includes a brief description and a 'Recommended' or 'Getting started' label. The bottom of the dashboard has tabs for 'User access', 'News', and 'Planned maintenance'. The Windows taskbar at the bottom shows the time as 2:13 PM on 11/12/2022.

An IBM Cloud Service created Successfully .
